Hi Douglas and Lucita,

I found some contact lists in the 2017 hearing boxes and there were 120 people on these lists that had not been included in the 2019 emails. I talked it over with Lucita (in a panic!) when I first found the lists and she asked me to find out the final number of people and discuss with you both the message to send.

Now that I know the total number I am letting you know, so you can tell Sarah and decide how far up the management chain we need to go with this info and to get your thoughts on what the email to them should say. These folks were not speakers at the previous public hearings and they did not submit any comments during the public comment period. I did have all of those lists and included them in the 2019 contact lists. Lucita pointed out that these 120 people will still get more than 30 days of public comment

and still have the opportunity to request a public hearing. I think the chances are low for that since they were not speakers or commenters.
